

In the future we see a three-mile, tree-lined corridor of businesses and residences in a warm neighborhood setting, along well-swept Douglas Avenue, between Old Town & Oliver.

Here you'll find miles of locally owned stores, trendy shops, cafes, and pubs. Some quaint, some funky, some cosmopolitan but, all intriguing and full of life.

These unique shops and businesses are inter-mixed with charming residential neighborhoods, townhouses and loft apartments. A place with unique architecture. A place with history.

The District will be a magnet for new design businesses and a compelling location for new business start-ups in general. The area will have an image as a trendsetter and a place to discover exciting new home fashion, dining, entertainment and many other products and services.

Don't just dream about what "the District" might be...help make it happen!
